

Working Tile by Max Lamb

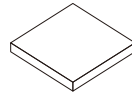

Max Lamb's design explores the potential of Tajimi's unique tile manufacturing system and the goals of Tajimi Custom Tiles.

He developed a set of modular, three-dimensional tiles that can be assembled to create countless shapes, resulting in diverse objects, including vases, low tables, benches, and partition walls. He carefully selected materials to maximize the clay's earthy appeal, while using special glazes that revive the subtle, deep colors found in traditional Japanese tiles. These volumetric, three-dimensional forms are achieved using the high pressure slip casting method, which ensures highly precise shapes and intricate patterns.

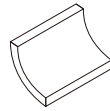

PRICES [ex-works]

FLAT (001)

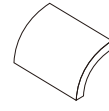

Size	180 x 180 x t20mm 30 pcs /m ² (5mm gap)			
Quantity	1-9	10-49	50-99	<100
Unglazed	¥ 3000	¥ 2500	¥ 2000	¥ 1700
Glazed	¥ 4000	¥ 3400	¥ 2700	¥ 2300

COVE (002)

Size	(100+100) x 180 x t20mm (R80)	
Quantity	1-9	< 10
Unglazed	¥ 4500	¥ 3500
Glazed	¥ 6000	¥ 4700

BEAD (003)

COVE IN (004)

Size	100 x 100 x 100 x t20mm (R80)
Unglazed	¥ 6600
Glazed	¥ 8400

BEAK (005)

BEAD IN (006)

Size	180 x 180 x 100 x t20mm (R80)
Unglazed	¥ 8600
Glazed	¥ 11000

COVE OUT (007)
